

## Multi Purpose Stadium Wagga Wagga

Multi-purpose stadium facility with 3 basketball courts and mezzanine seating area structure over associated facility amenities.

The building design was adapted to be used as an "Entertainment Venue" and can now accommodate up to 3,100 people at a single event. This makes the facility suitable for use for sporting events as well as a concert hall, exhibitions or as an entertainment venue for the greater Wagga community.

The design was also developed to allow additional courts to be added to the eastern end of the main courts, incorporating a disability lift and wheelchair seating spaces, fire sprinkler system and functions provisions.
